

HANNAH PAÑARES - ABASA

UI/UX DESIGNER | FRONTEND

09771429251 | hannahpanares@gmail.com | hannahgurlah.github.io

63 - J Mancono Street, La Paloma Village, Cebu City, Cebu, 6000, Philippines

ABOUT ME

Starting as a Graphic Designer, I specialized in creating visual concepts using Adobe Photoshop, Illustrator, and InDesign, focusing on branding materials such as logos and brochures.

Realizing the importance of web design, I transitioned by designing website mockups with Figma and Sketch, evolving these into functional websites with HTML, CSS, and JavaScript. I expanded my skills with platforms like WordPress, Wix, Webflow, and Shopify for dynamic site creation.

Learning ReactJS and AngularJS further empowered me to develop interactive web applications. Today, I combine graphic design, web design, and Front-end development to deliver effective web solutions and stay current with industry trends.
